

Tunes for Twos (Age 2)

Short-Term Program

April to June

July to August

September to November

January to March

Children at the age of 2 to 4 start to develop their hearing ability, therefore, it is a great time to introduce them to the fundamental elements of music. In this class students and parents will learn music through singing words and musical patterns, rhythm & movement, music appreciation, and sound games. This course will also prepare your child to advance to Apple Course/ Music Wonderland.
